About the Artist

THE FRIENDS OF LILITH

In 1998 Ernst moved to San Francisco and painted “Lilith” the first in a series. The paintings represent a series of complex relationships and demonstrate Ernst’s ability to capture a depth of emotion and personality. E. Ernst is the pseudonym for a California artist who specialized in nudes, sometimes erotic, often thoughtful and intimate that capture the character, mood, and personality of the subject. All of the paintings and drawings have the particular immediacy of style that have made Ernst popular with collectors
